The Extended Day Fours program is a unique combination of the traditional fours class and the JK program. With an extended day, we prepare older four-year-olds for the rigor of the kindergarten day by including lunch in our program. We start the year as a fully play based fours program with a strong emphasis on social and emotional skills but as the students mature and grow from their additional classroom time, when we return from Christmas break in January, we begin to introduce JK components such as more complex fine motor work, encouraging more advanced literacy, math and writing skills and challenges, as well as, longer group times that more closely mirror the traditional JK class.
